

Addendum #4 – SHASCOM Remodel
March 6, 2009

I am extending the time/date for submission of bids on the SHASCOM remodel project.

Bids are now due by 11:00AM, Monday March 16, 2009 at SHASCOM, 3101 South Street, Redding CA, 96001.

There are two factors that have caused me to extend this due date:

I was unavoidably stranded out of town due to weather on March 2nd and 3rd and was unavailable to answer questions or relay questions to the architect and engineer. Today, after consulting with the architect, Addendum #3 allows for and "equivalent to" product for the Liebert HVAC equipment, a significant change.

In light of these facts, I feel that extending the due date will allow you all time to better prepare your bid information.

This information will also appear on our website as Addendum #4. My webmaster in Oregon is still working on posting #3, but we will get them all posted. I know all of you have scrambled to prepare your bid, and I appreciate that work; I hope that this extension is not too much of an inconvenience.
